Home visit to Victoria Street

Arrived at the house today at 12:30 – everything appeared to be as expected with the front door locked and secure.

Checked all rooms to ensure that all windows were secure, no issues found in any of the rooms.

All taps are turned off and then moved around a variety of curtains and switched on different lamps in living room and hallway, as instructed.

All plants that felt dry were given a moderate amount of water and will recheck on next visit.
